Real Estate Investments

Market Trends (2019-2024):

The Los Angeles real estate market has seen significant changes from 2019 to 2024:

Overall median home prices increased from around \$717,583 in 2019 to \$976,303 in 2024, a 36% increase.

Rental rates have also increased, but at a slower pace, leading to slightly higher rent-to-price ratios in many neighborhoods.

The COVID-19 pandemic initially caused market uncertainty, but by 2021, the market rebounded strongly with increased demand for larger living spaces.
